Digital Photography Workshop Series

Chuck Behrman, a Los Angeles based advertising and fine art photographer, has been holding workshops in digital photography, Photoshop and Lightroom in the Los Angeles and Central Coast areas since 2004.

Working With Both Lightroom & Photoshop

How to use Lightroom and Photoshop *together* to produce and print beautiful images

Requirements: Adobe Photoshop (or Photoshop Elements) and Adobe Lightroom

Tuesday, September 22, 2009

7:00 - 9:00 PM

This is one of the Quick-Start Photoshop workshops, designed to enhance your understanding of digital image processing in a minimum amount of time.

This workshop covers, through live, real-time demonstrations, how effectively use Adobe Photoshop (or Elements) & Lightroom together to create digital photographs.

You will learn, step by step:

- How to set up the Photoshop & Lightroom preferences for the way you like to work
- How to set the color space to get the right colors
- How to use Lightroom to get your images into your computer
- How to use Lightroom to fine tune your exposure, contrast and color
- When and how to use Photoshop to further enhance your images non-destructively using Smart Objects and adjustment layers
- How to use 3rd party plug-in filters in your Lightroom/Photoshop workflow
- How to soft proof your image in Photoshop
- How to use Lightroom to easily export images for email, the web or printing at a lab
- How to use Lightroom to print your image to a desktop printer

The class information is for both Mac and Windows and is applicable to Photoshop (CS Versions), recent versions of Photoshop Elements & Lightroom.
