C. H. BEHRMAN PHOTOGRAPHY

2009

# Digital Photography Workshop Series

**Chuck Behrman**, a Los Angeles based advertising and fine art photographer, has been holding workshops in digital photography, Photoshop and Lightroom in the Los Angeles and Central Coast areas since 2004.

## The Secrets of Photographing Sculpture and Other Small Products At Home

**A Pragmatic Approach to Easily Photographing Sculpture Using An Inexpensive Table Top Setup with a Digital Camera and Processing Your Images with Photoshop Elements.** (Basic – Intermediate)

**September 23, 2009 7 - 9 PM**

**To Be Held At**

**San Luis Obispo Art Center**

1010 Broad Street  
San Luis Obispo, Ca 93406

This workshop covers, through live, real-time demonstrations, how to quickly and easily create professional looking photographs of your sculpture or similar items using an inexpensive table top setup.

You will learn:

How to set up a seamless background to use as the basis for your photograph.

The basics of lighting in order to add a truly dimensional look to your photograph.

How to correct the color balance of your photograph so that it will look natural.

How to get your digital image from your camera to your computer.

The basics of using Photoshop Elements to process your photograph to a form that can be used for print, email and the internet (eBay).

How to resize your photograph to meet the specified requirements of galleries and shows.

The computer information presented in the class covers beginner's levels of Photoshop Elements 6 (Mac) or 7 (Windows) and is applicable for both Macintosh and Windows.

### The included CD contains video tutorials for:

- How to set up and take a tabletop photograph
- How to get your images into your computer
- How to open and process a RAW image
- How to open and process a jpeg image
- How to float an image by replacing the background
- How to resize and save images for print, email and the internet
